A-series sound design delivers better car-music-life
 • Powerful and well controlled bass
 • High sensitivity and Wide dynamic range
 • Clarity of vocal
 La conception sonore de la série A offre une meilleure qualité sonore
 • Basse puissante et bien contrôlée
 • Haute sensibilité et large gamme dynamique
 • Clarté de la voix

- FEATURES
1. OPEN and SMOOTH delivers smooth frequency response and an expansive soundstage
 2. Carbon and Mica reinforced IMPP cone provides fast response and solid bass
 3. Optimized symmetrical motor design reproduces accurate sound
 4. Polyimide (PI) tweeter diaphragm provides natural and clear vocal
 5. Multi-fit adaptors expand installation flexibility and improve acoustic performance
- CARACTÉRISTIQUES
1. OPEN et SMOOTH fournissent une réponse en fréquence douce et une scène sonore expansive
 2. Le cône IMPP renforcé de carbone et de mica procure une réponse rapide et des basses solides
 3. La conception optimisée du moteur symétrique reproduit un son précis
 4. Le diaphragme Polyimide (PI) du tweeter fournit une voix naturelle et claire
 5. Les adaptateurs multi-adaptables augmentent la flexibilité de l'installation et améliorent les performances acoustiques
