

✎ **Don't give your dog a ride in a car or a boat without proper restraint.** There's a reason you're not allowed to drink and drive. The same goes for driving with a pet. "It's not safe to have a pet in the front seat of a car," says Dr. Miller. "If you're in an accident, the pet could become a projectile and become airborne." The same goes for boats. "If you're in a boat accident, the pet could become a projectile and become airborne," says Dr. Miller. "If you're in a boat accident, the pet could become a projectile and become airborne."
