Color Temperature/Color Changing Touch Bar ON/OFF Base Brightness Touch Bar Lamp Body 01	Charging Port USB Cable 02
---	---

ON/OFF: Short tap to turn on/off. Long tap for 3s: Color Temperature/Color Changing switch. Note: If you activate "ON/OFF Lamp" function in Yeelight APP, the lamp may be turned on/off due to lamp vibration caused by external environment such as collision, sound, and etc. This is normal phenomenon because the lamp has accelerometer sensor. If you feel uncomfortable, please turn off the function in the APP. 02 More Features Night Mode Set your own night mode in the app. The lamp will turn on automatically with cozy highlight during the preset night mode period. If not in the preset period, the lamp will return to the default state saved in the APP. The night mode will off by default. Please activate it in Yeelight APP. 03	03 Connect with Yeelight APP 1. Scan the QR code to download and install the Yeelight APP. 2. Make sure the lamp is powered on, turn on the application, and follow the in-app instructions for setup and related operations. *Please make sure the Wi-Fi network is available and can access the Internet normally (this product does not support 5G network). 04 Apple HomeKit Smart Control 1. Open the Home APP on your iPhone or iPad. 2. Click "+" button, and add accessory as per the prompts in the app. Scan the QR code on the light to add the product base. Alternatively, input the bridge code shown above the QR code to complete the access. *Make sure the Wi-Fi network is available and you can get access to the Internet normally. This product is not compatible with 5G network. *To ensure proper HomeKit compatibility, it is recommended to use iOS 9 or above. *HomeKit codes are indicated under the base of lamp. Please be noted that HomeKit codes are required for reset every time. Apple is the trade mark of Apple LLC. 04
