

MULTIMEDIA SPEAKER

V28A

User Manual

Security information:

Warning

1.Please read this manual carefully and keep it properly.

2.Please use accessories specified by the manufacturer.

3.Please install according to the instructions in the manual.

4.It is recommended to use this product in an environment with a temperature range of 0-35℃.

5.To reduce the risk of fire and electric shock, please do not expose this product to rain or moisture.

6.Do not use this product near water, nor immerse it in any liquid or allow any liquid to drip or splash onto it.

7.Avoid installing or using this product near any heat sources (such as radiators, heating equipment, stovetops, or other heat-generating devices).

8.Never place any water-filled containers, such as vases, on top of this product; nor should any form of open flame, like a lit candle, be placed on it.

9.Do not block the openings of this product or insert objects into its vents or slots, as this may pose a risk of fire or electric shock.

10.Please ensure adequate space around this product to maintain good ventilation (recommended to be 5cm or more).

11.Do not forcibly insert the plug into the port. Before connecting, check if the port is blocked, if the plug and port are compatible, and if the orientation is correct.

12.To prevent children from ingesting the provided accessories (such as Adapter), please keep them out of reach of children.

13.Do not attempt to open or remove the casing for repairs as it may expose you to dangerous voltages or cause other hazards. Regardless of the reason for damage, professional repair personnel must be consulted for repairs, especially if the power cord or plug is damaged, if liquid has spilled or objects have fallen into it, if it has been exposed to rain or moisture, if it malfunctions, or if it has been dropped.

14.Before wiping or cleaning the product with a dry cloth, please turn off the product and unplug it from the power source.

15.Do not use strong acids, strong bases, gasoline, alcohol, or other chemical solvents to clean the product surface. If cleaning is necessary, please use a neutral solvent or water.

16.This product is not sold with a power adapter. If consumers choose to use a power adapter for power supply, they should purchase a formal and standard-compliant power adapter.

FAQs:

1.Failure to Power On

Check if the machine is in the off state and try to power it on by pressing and holding the power button. Alternatively, inspect the USB port for poor connection. If the device is powered by a USB port on a computer, try using a different port as a troubleshooting step.

2.Unable to Connect via Bluetooth

Ensure that both the speaker and the connecting device have Bluetooth turned on and are within an effective connection range. Alternatively, try resetting the speaker using the [Forced Bluetooth Pairing] function before attempting to connect again.
