DURACELL
Rechargeable

99435958

UK Caution: We recommend charging DURACELL NiMH rechargeable batteries only. Do not attempt to charge non-rechargeable batteries. Misuse could cause batteries to rupture, causing personal injury or damage. Indoor use only. Dry location use only. Risk of electric shock. Never disassemble or alter any part of the charger or batteries. Charger or batteries may become hot during charging and will cool down when charging is complete. Not recommended for use by children.

IMPORTANT SAFETY INSTRUCTIONS:

1. SAVE THESE INSTRUCTIONS – this sheet contains important safety and operating instructions for this charger.
2. Before using battery charger read all instructions and caution markings on the charger, battery, and device using battery.
3. CAUTION - To reduce the risk of injury, charge only NiMH rechargeable batteries. Do not charge Alkaline, Zinc Carbon, Lithium, NiOOH, or any batteries other than NiMH, as they may burst causing personal injury and damage. Keep batteries away from fire or explosion may occur. For proper insertion, please observe polarity indicators (+/-).
4. For indoor use only. Do not expose to rain or snow.
5. Do not place in or near water or extreme heat.
6. Do not operate charger with damaged plug.
7. Do not operate charger if it has been severely damaged in any way.
8. Do not disassemble charger. Disassembly may result in a risk of electric shock or fire.
9. To reduce the risk of electric shock, unplug the charger from the outlet when not in use.
10. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

OPERATING INSTRUCTIONS:

*If Flashing Red LED is encountered, first ensure you are attempting to charge a NiMH AA or AAA battery only. If yes, remove and reinsert the NiMH battery. If battery has become heated, it may be damaged. Insert a new NiMH battery.

TO CHARGE BATTERIES:

1. Insert 2 AA or AAA NiCd or DURACELL NiMH rechargeable batteries into the charging slot.
2. Connect the power cord to the charger.
3. Plug in the cord to a power source.

LED Indicator for AA/AAA

Condition:	LED:
No battery	Off
Charging	Red
Completed charge	Green
Abnormal Battery	Flashing Red*

4. If the connection is correct, the red LED will light to indicate that the charger is charging.
5. When all the batteries are fully charged, the green LED will light.
6. Now the batteries are ready to use, unplug the charger from the power outlet and remove the batteries.
7. If abnormal conditions are detected by the charger during charging, the charger will stop charging and the red LED will flash.
8. Rated capacity of batteries that can be charged: AA 2000 or 2650 mAh; AAA 1000 mAh.

NOTES & USAGE TIPS:

1. New batteries may need to be charged before using.
2. This charger is capable of accepting 100-240 V AC, 50/60 Hz and, therefore, can be used overseas.
3. Batteries will automatically stop charging when full charge is reached. Safety protections will prevent battery from overcharging.

Charging Time Table

Cell Capacity	Charging Time
2650 mAh	9 hours
2000 mAh	7 hours
1700 mAh	6 hours
1000 mAh	7 hours
800 mAh	6 hours

CORRECT DISPOSAL OF THIS PRODUCT

This marking indicates that this product should not be disposed of with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return collection systems or contact the retailer where the product was purchased. They can take this product for environmentally safe recycling.

Duracell BVBA
3200 Aarschot, Belgium

FR Mise En Garde : A utiliser exclusivement avec des piles NiMH rechargeables. Des piles rechargeables NiMH DURACELL sont recommandées. Ne pas recharger des piles non rechargeables. Une mauvaise utilisation pourrait faire exploser les piles et causer des blessures ou des dommages. A utiliser en intérieur uniquement. A utiliser dans un endroit sec uniquement. Risque de décharge électrique. Ne jamais démonter ou modifier le chargeur ou les piles. Le chargeur ou les piles peuvent chauffer pendant la charge et refroidir une fois celle-ci achevée. Ne pas laisser à la portée des enfants.

CONSIGNES DE SECURITE IMPORTANTES :

1. CONSERVEZ CES INSTRUCTIONS - cette feuille contient des consignes de sécurité et des instructions d'utilisation importantes au sujet de ce chargeur.
2. Avant toute utilisation du chargeur, lire attentivement toutes les instructions et précautions d'emploi indiquées sur le chargeur, les piles rechargeables, et les appareils utilisateurs.
3. ATTENTION - Pour réduire les risques de blessures, charger uniquement des piles NiMH rechargeables. Ne pas charger de piles alcalines, au carbone-zinc, au lithium ou NiOOH ou toutes autres sortes de piles non spécifiées, car elles risqueraient d'exploser et de provoquer des blessures et des dommages. Conservez les piles à l'écart du feu pour éviter les risques d'explosion. Respecter la polarité des piles rechargeables (+/-) lors de leur insertion dans le chargeur.
