Легендарный танк Т-34

Танк Т-34 – основной и самый известный советский танк Второй мировой войны 1941-1945 г.г.

Его технические характеристики и особенности конструкции давали огромное преимущество в бою. Можно сказать, что наличие на вооружении этого танка во многом определило исход многих битв Великой Отечественной войны и результат войны в целом.

Танки Т-34 участвовали в освобождении Украины, Белоруссии, Польши, Венгрии, Румынии, а также в Берлинской операции, именно этот танк называют «Танком Победы».

Танк выпускался на предприятиях СССР с 1940 до конца 50-х гг. Всего произведено свыше 84 тысяч единиц.

После окончания Великой Отечественной войны танк Т-34 новой модификации был основной боевой машиной Советской армии до середины 50-х годов.

Танки Т-34 в течение 20 века (вплоть до 1993 г.) стояли на вооружении более 40 стран.
